Insert: "NEW SECTION. **Section 17. Requirements prior to project financing.** Prior to selling bonds or undertaking any other form of financing under [sections 1 through 21], the governmental body shall enter into a contract or contracts:

(1) with a transmission services provider to interconnect with the transmission or distribution facilities of a utility or cooperative;

(2) that ensure that all ancillary services are available to regulate the generation of electricity from the project as required by the control area operator; and

(3) for the sale of electricity from the project."

Insert: "NEW SECTION. **Section 18. Prohibition on construction, ownership, and operation of powerlines.** [Sections 1 through 21] do not authorize a governmental body to:

(1) construct, own, or operate electricity distribution or transmission facilities; or

(2) use the proceeds from bonds under [sections 1 through 21] to construct, own, or operate electricity distribution or transmission facilities."

Insert: "NEW SECTION. **Section 19. Wind integration study.** Before March 30, 2008, the office of the governor shall:

(1) study wind energy integration in Montana to determine the ancillary services expected to be needed by control areas integrating wind energy in Montana, including the impact of location diversity on the need for ancillary services; and

(2) present the findings of the study to the energy and telecommunications interim committee."

Insert: "NEW SECTION. **Section 20. Marketing assistance.** (1) The office of the governor shall contract with a qualified consultant to provide electricity marketing assistance to governmental bodies developing projects under [sections 1 through 21]. The preferred market for excess electricity from the projects developed pursuant to [sections 1 through 21] is outside Montana.

(2) The consultant that is hired under subsection (1):

(a) must have thorough knowledge of the electricity markets in the western United States;

(b) must be familiar with transmission reservation and scheduling processes related to a transmission services provider's obligation under federal energy regulatory commission rules;

(c) must be well-versed regarding the effects of

intermittent generation resources on the transmission grid; and
(d) may not be involved in any existing or proposed energy development projects in the state that could affect the consultant's impartiality or have other potential conflicts of interest that could affect the consultant's ability to provide nondiscriminatory electricity marketing assistance services."
